

Investing for Success

Under this agreement for 2022
Kuraby State School will receive

\$263 419*

This funding will be used to

- Increase the percentage of students receiving a C or above in Mathematics from 82% (Semester 2 2021) to 90%.
- Increase the percentage of students receiving a C or above in English from 78% (Semester 2 2021) to 85%.

Our initiatives include

Teaching and Learning

- Utilising Kuraby planning process in expert teaching teams as a model for developing units for Australian Curriculum Mathematics.
- Implementing Data and Curriculum cycle and ALT meeting format for Mathematics.

Student Centred

- Continuing to refine Data and Curriculum cycle to support all teachers in improving outcomes in English and data literacy.
- Regularly analysing and using data sets to inform teaching and next steps for learning.
- Ongoing support for all students' learning requirements.

Research and Tools

National School Improvement Tool, Evidence Hub/Standards of Evidence.

Dimensions of Teaching & Learning, Visible Learning Literacy (Fisher & Frey).

Our school will improve student outcomes by
